

# WAQAR SAFDAR (Frontend Developer)

03056232103 | [wsaikhoul6@gmail.com](mailto:wsaikhoul6@gmail.com) | Rawalpindi, Pakistan

## About me

Skilled Frontend Developer with **3+ years** of experience in creating dynamic, responsive web applications using ReactJS, JavaScript, and TailwindCSS. Proficient in using Redux for state management, Firebase services for authentication, and managing scalable UI components. Seeking to leverage my skills in a reputable organization focused on cutting-edge frontend development.

## TECHNICAL SKILLS

- **Frontend Technologies:** ReactJS, NextJS, JavaScript (DOM manipulation, ECMAScript), CSS, TailwindCSS, HTML
- **State Management:** Redux, Redux Toolkit, Context API
- **Version Control:** Git, GitHub
- **APIs & Backend:** RESTful APIs, Firebase (Firestore, Authentication), API Integration, Fetch/Axios
- **Tools & Libraries:** React Hooks, Progressive Web Apps (PWA), React Router, Prime React, UI libraries (MUI)

## PROFESSIONAL EXPERIENCE

### Frontend Developer

BCDapps, Rawalpindi (Dec 2022 – Present)

- Designed and developed efficient and scalable user interfaces and components using React.js.
- Utilized Redux and Redux Toolkit for state management and handling side effects.
- Conducted unit testing and collaborated with backend teams to integrate APIs.
- Managed code versioning and defined control flows using Git.

### Junior Developer

Cybro.s.dev, Gujranwala (May 2022 – Nov 2022)

- Developed front-end architecture for user interface concepts using React.js.
- Collaborated with product teams to deliver features within tight timelines.
- Wrote efficient, well-documented code following React.js best practices.

### Junior React Developer

Technolligence, Rawalpindi (Jun 2021 – Jan 2022)

- Worked on creating responsive and reusable front-end components using React.js.
- Collaborated with design teams to implement pixel-perfect UI features.

## EDUCATION

### Bachelor of Science in Software Engineering

National University of Modern Languages, Islamabad (Feb 2016 – Feb 2020)

## PROJECTS

- **QuickReach.ai:** Developed responsive UI components using NextJS and Redux for a client's website. Added Portal for orders.  
[www.quickreach.ai](http://www.quickreach.ai)
- **Digiart.company:** Created custom web components, improving UX by implementing faster load times using Next.js.
- **datamedic.uk:** Developed UI and dashboard using next JS. Use context for state Management. Use Tailwind css for styling.
